

## EXTREME COLD AND TROOPS' CONDITION CHECKS FIGHTING

### BATTLE IN FLANDERS AND FRANCE AT STANDSTILL

FIGHTING HAS BEEN MILD FOR  
LAST THREE DAYS COMPARED  
WITH FIERCENESS OF THAT  
WHICH PRECEDED IT—BEST  
GERMAN TROOPS SENT TO  
EASTERN FRONT.

#### BULLETIN.

Petrograd, via London, Nov. 22.  
—4:21 a. m.—It is semi-officially  
announced that the police have dis-  
covered a new revolutionary plot in  
which several members of the Duma  
are implicated. A number of ar-  
rests have been made.

London, Nov. 21.—The extreme  
cold weather and the exhaustion of  
the troops engaged have virtually  
brought the battle in Flanders and  
France to a standstill. A desultory  
artillery duel continues at some  
points along the wide front and  
there has been an occasional infantry  
attack, but for the last three  
days the fighting has been mild  
compared with the fierceness of that  
which for more than a month pre-  
ceded it.

The Germans, it is evident, have  
sent their best troops to the eastern  
front and even in big guns the al-  
lies appear to have the advantage  
over them. There are no signs,  
however, of an offensive on a large  
scale on the part of the allies, who  
doubtless are as badly in need of  
rest as their opponents. In fact, it  
is stated that the officers and men  
who have borne the brunt of the  
fighting in the trenches are being  
given a short leave. This, together  
with the cancellation of the order  
for the removal of shipping from  
Dunkirk, is taken to indicate that  
the allies consider their positions  
safe for the present and that they  
do not contemplate any immediate  
attempt at a forward movement. For  
this reason and because the result  
will have a most important bearing  
on the battles of Poland. As has  
been the case heretofore when im-  
portant events were impending, lit-  
tle news is coming from either Ber-  
lin or Petrograd as to the opera-  
tions. It is known, however, that the  
Germans are offering stubborn re-  
sistance to the Russian advance in  
east Prussia. General Von Hinden-  
burg, commander of the German  
troops and Grand Duke Nicholas,  
commander in chief of the Rus-  
sians, two of the greatest strategists  
the war has produced, are maneu-  
vering for positions between the Vis-  
tula and the Warta and a big battle  
is in progress between the Cracow-  
Czenstochowa line between Russian  
and Austro-German forces.

An unofficial despatch coming  
through Rome says that the Rus-  
sians repulsed two attacks before  
official statement that the Russians  
have had partial success northwest  
of Lodz there is nothing to indicate  
how things are going. In Socialist  
quarters in Copenhagen which are  
in touch with the Socialists of Ber-  
lin, it is said that seven million  
men are engaged in the battles on  
the Russo-German frontiers, three  
million on the Austro-German side  
and four million Russians.

The Serbian retirement from Val-  
jevo is described from Nish as a  
strategic movement, but the loss of  
guns and prisoners is admitted.

## ELEVEN MEN SENTENCED TO BE HANGED IN ARIZONA

Six Americans and Five Mexicans to  
Pay Death Penalty on December  
19th.

Phoenix, Ariz., Nov. 21.—Eleven  
men, six Americans and five Mexi-  
cans, will be hanged in Florence peni-  
tentiary on December 19th for  
murder. The people of the state  
pronounced their doom by voting  
against the abolishment of the death  
penalty on Nov. 3rd. Gov. George W.  
P. Hunt said today and he there-  
fore will not interfere. But R. B.  
Sims, warden of the penitentiary,  
will resign, it is said, rather than  
spring the trap which will drop the  
men to death.

Three other men have been con-  
demned to hang and the governor  
has also said he would not interfere  
in their cases.

"The death of these fourteen men  
will rest upon the heads of those  
who voted against capital punish-  
ment," Governor Hunt said. "Three  
or four of the principal parties who  
helped to defeat it should be made  
to pull the rope. Also if the death  
penalty is a good thing the execu-  
tions should be made more impres-  
sive by erecting the gallows in the  
public square."

The hanging on December 19th  
will be the first executions under  
state authority since Governor Hunt  
assumed office. Two former sol-  
diers convicted of murder, were  
hanged at Globe, some months ago  
under the authority of the United  
States, but only after Arizona offi-  
cials had declined to put them to  
death.

## Only Survivor of "James Gang" Ill

FRANK JAMES STRICKEN WITH  
HEART DISEASE—FARMER  
FOR PAST THIRTY YEARS  
—CONDITION IMPROVES.

Excelsior Springs, Mo., Nov. 21.  
—Frank James, famous as a mem-  
ber of the band known as "The  
James Gang", who terrorized the  
southwest during a period immedi-  
ately following the Civil War, was  
stricken with heart disease today at  
the James homestead, nine miles  
from this city. James is 73 years  
old.

Tonight his condition showed im-  
provement, physicians said.

One of Last Members of Band.

One of the last members of a no-  
torious robber band whose career of  
crime for many years kept the peo-  
ple of a dozen states in terror, Frank  
James has been living the life of a  
quiet farmer for more than thirty  
years.

The son of a minister, Frank  
James joined Quantrell's guerrillas  
in the civil war with his brother  
Jesse and took part in the sacking  
of Lawrence, Kas. When the war  
ended they were hunted by relatives  
of those who had met death at their  
hands. They soon became outlaws.  
Many crimes of the decade following  
the war have been laid at the door  
of the James-Younger gang of which  
the only surviving members are  
Frank James and Cole Younger, the  
latter now living at Lees Summit,  
Mo. Among these deeds were:

Raid on the Commercial Bank at  
Liberty, Mo. In 1866. One bank  
defender was killed and \$70,000 was  
stolen.

Looting of the Russellville, Ky.  
bank in 1868 for \$17,000.

Bank robbery at Gallatin, Mo. in  
1868, in which the cashier, Captain  
John W. Sheets, was killed.

Robbery of a bank at Columbia,  
Ky. in 1872, in which R. A. C.  
Martin, the cashier, was killed.

Raid on a bank at Corydon, Iowa,  
in 1873, in which \$40,000 was  
stolen.

Wrecking and robbing of a Chi-  
cago, Rock Island & Pacific train  
near Council Bluffs, Iowa, in 1875.  
The engineer was killed, the fireman  
wounded and several passengers in-  
jured.

Box office in the fair grounds at  
Kansas City, Mo. robbed of \$9,000  
in day light in 1872.

Bomb Kills Brother.

Detectives surrounded the James  
home near Kearney, Mo., Jan. 25th,  
1875, and threw a lighted bomb in-  
to the house, thinking to kill the  
James brothers. It exploded tearing  
the arm off their mother and  
killing their brother Archie.

Although the James boys partici-  
pated in many robberies, it is now  
generally believed that there were  
innumerable robberies charged up  
to them of which they were inno-  
cent.

In 1882, after Jesse James had  
been shot and instantly killed in his  
home in St. Joseph, Mo., by Charles  
Ford, also a bandit, for a reward of  
\$50,000, Frank James surrendered  
in Jefferson City, Mo.

## STRANGLER ATTACKS AURORA WOMAN IN BUSINESS DISTRICTS

Police Attracted by Screams Reach  
Victim Just as She Loses Con-  
sciousness.

Aurora, Ill., Nov. 21.—Close on  
the heels of the death of Miss Jen-  
nie Miller, who was beaten to death  
in the shadow of the Free Methodist  
church on Wednesday night, Mrs.  
Abbie Thompson, 60 years old, was  
attacked by a stranger tonight in  
her room on the upper floor of a  
building in the heart of the busi-  
ness district. Her screams were  
heard by a hundred of Saturday  
night shoppers who were in the  
neighborhood and the stranger fled  
just as she lost consciousness. The  
police raced into the building and  
upstairs just in time to see the  
man drop from the roof of the third  
story building to the top of a lower  
structure and then to the ground.

The police at once threw a dead  
line around the vicinity and began  
combing the section for the fugitive,  
they believe is in hiding therein.  
Those officers nearest the man said  
they recognized him as local char-  
acter known as "Happy Jack."

Mrs. Thompson and Happy Jack  
are said to have quarreled over  
money matters.

The death of Miss Miller and its  
similarity to the murder of Miss  
Theresa Hollander who was beaten  
to death in St. Nicholas cemetery a  
year ago, served for the previous  
two nights to keep many residents  
off the streets nights but tonight  
the shopping district was crowded.  
When Mrs. Thompson's cries were  
heard, fully 4,000 jammed about  
the first floor entrance of the build-  
ing from the upper stories of which  
the cries had come given up a the-  
ory that Miss Miller might have  
been killed by a jealous husband  
who mistook her for his wife.

#### KANSAS WHEAT CROP.

Topeka, Kan., Nov. 21.—The  
Kansas wheat crop of 1914 amount-  
ed to 150,924,885 bushels, with a  
value estimated at \$151,583,932, ac-  
cording to the annual wheat crop  
report of the Kansas board of  
agriculture issued today.

This is nearly double the value  
of the state's next most valuable  
crop, that of 1909, when the  
estimated value of the crop was  
\$75,941,000.

## TURKS FIRED TO WARN AMERICANS OF MINES IN PORT

### SHOTS INTENDED MERELY AS CUSTOMARY WARNING

TURKISH GOVERNMENT VOLUN-  
TARILY EXPLAINS SHOTS FIRED  
TOWARD U. S. LAUNCH IN  
PORT OF SMYRNA—REMOVES  
ALL DANGER OF SERIOUS  
COMPLICATIONS.

Washington, Nov. 21.—Turkey  
has voluntarily explained to the  
United States government through  
Ambassador Morgenthau that the  
shots fired toward the launch of the  
American Cruiser Tennessee, last  
Monday, were intended merely as  
the customary warning that the  
port of Smyrna was mined and closed  
to navigation.

Although the explanation is in-  
formal and the United States gov-  
ernment still is awaiting a reply to  
formal representations which Am-  
bassador Morgenthau was instructed  
to make to the Turkish foreign  
office, it was admitted at the white  
house and state and navy depart-  
ments that all danger of serious  
complications over the incident had  
been removed.

Ambassador Morgenthau reported  
that two members of the Ottoman  
cabinet the ministers of interior and  
war, had fully explained the occur-  
rence to him and high officials here  
said his message was filed before  
the instructions sent from Wash-  
ington to discuss the subject offi-  
cially with the grand vizier could  
have been received by Mr. Morgen-  
thau.

President Wilson and his cabinet  
regard the informal explanation as  
a certain precursor of a satisfac-  
tory formal explanation and that  
guarantees for the protection of  
Americans and their interests al-  
so will be forthcoming from the  
Turkish government.

Relieves Delicate Situation.

The message from Mr. Morgen-  
thau, dated November 16th, but de-  
layed enroute, relieved a delicate  
situation. It arrived late in the  
afternoon and after being deciphered  
was discussed at a conference  
tonight between the President, Sec-  
retary Daniels and Acting Sec-  
retary Lansing of the state depart-  
ment. Thereafter the substance of  
the message was made public.

The right of a belligerent to mine  
its ports and exclude neutral mer-  
chantmen as well as warships is  
recognized in international law and  
the only ground on which the sub-  
ject probably will be further dis-  
cussed will be to elicit from the Ot-  
toman government some definite  
guarantees respecting the safety of  
Americans and their interests for  
that it will not be necessary for  
Americans warships to visit Turkish  
ports. Secretary Daniels announced  
today that his order to the com-  
manders of the Tennessee and  
North Carolina suspending the navy  
regulations which ordinarily give  
them wide discretion would be in ef-  
fect only until the present incident  
was explained.

Tomorrow he will rescind that  
order and give the captains of the  
two American vessels the same lat-  
titude they had previously enjoyed.  
The vessels may not remain in Tur-  
kish territorial waters, but will  
stay within a half day's sail in  
some of the islands now belonging  
to Greece.

## FIND TOTAL OF TWELVE BODIES ON LAKE SHORE

Among Wreckage Found on South  
Shore Are Life Belts Stenciled,  
"Str. Curtis."

Seney, Mich., Nov. 21.—Life sav-  
ers reported late today that a total  
of twelve bodies have been found  
on the south shore of Lake Superior  
during the 36-hours search  
which followed the gale that swept  
the lake on Thursday. The four  
bodies found since the searchers  
previous reported were of men. The  
two corpses of women have not yet  
been identified.

Among the wreckage cast ashore  
were several life belts stenciled  
"Steamer Curtis."

The Curtis was towing the schoo-  
ner Peterson and S. E. Marvin.  
No wreckage of the Marvin has  
been found. The bodies found on  
Friday were those of the Peterson's  
crew.

## NEW PASSPORT REGULATIONS.

Washington, Nov. 21.—New pas-  
port regulation to prevent misuse of  
American identification papers in  
the belligerent countries of Europe  
were announced today by the state  
department. Hereafter photographs  
of the bearers will be attached to  
each passport when issued and a  
duplicate of the picture be kept on  
file.

## EIGHT DIE IN FLAMES.

New York, Nov. 22.—At least  
eight persons were killed and more  
than a score injured in two fires in  
tenement buildings on the West  
side today. The fires broke out in  
East Sides early this morning (Sun-  
day). Flames trapped the tenants  
in their rooms and many escaped  
death by leaping from roof or win-  
dow.

## Condition of Reserve Banks

FEDERAL RESERVE BOARD  
MAKES PUBLIC FIRST SHOW-  
ING OF TWELVE BANKS.

Washington, Nov. 21.—The first  
showing of the condition of the  
twelve federal reserve banks was  
made public today by the federal  
reserve board. The statement in-  
cludes operations for the five pre-  
ceding days and is preliminary to  
the detailed statement that will  
come weekly later.

Members of the board did not  
expect re-discounting operations to  
be large or quantities of federal re-  
serve notes to be taken out until  
the banks were firmly organized  
and their first reserve installments  
collected and the way paved for  
handling commercial business for  
member banks.

The Statement of Condition.

Cash on hand:  
Gold coin and certifi-  
cates ..... \$203,415,000  
Legal tender, silver cer-  
tificates, etc. .... 37,368,000

Total ..... \$240,783,000  
Re-discounts ..... \$ 5,607,000  
All other assets ..... 95,000

Total ..... \$246,425,000

Capital paid in ..... \$18,972,000  
Reserve deposits ..... \$227,138,000  
Federal reserve notes  
in circulation ..... 1,215,000

Total ..... \$246,425,000

Gold reserve against all liabil-  
ities, 89 per cent; cash reserve  
against all liabilities 105 per cent;  
cash reserve against all liabilities,  
after setting aside 40 per cent gold  
reserve against federal reserve notes  
in circulation, 105 per cent.

"Re-discounting privileges have  
been availed of, to a considerable  
extent, in New York, Chicago, St.  
Louis and Kansas City," the board  
said in its supplemental statement.  
Encouraging Reports from All Dis-  
tricts.

Elsewhere the showing is much  
smaller. Federal reserve notes to  
meet local demands have been is-  
sued principally in Chicago, New  
York and Minneapolis, but every  
bank has been supplied with an ad-  
equate quantity of notes to meet its  
needs. The relatively small amount  
of re-discounts as compared with  
the resources of the system is due  
to the policy of the federal reserve  
board in encouraging the payment  
of reserve deposits in actual money  
instead of in re-discounting paper.  
Rates of re-discount established a  
week ago were fixed with this pol-  
icy in mind. Reports from all dis-  
tricts are of the most encouraging  
nature and the outlook for business  
is stated as satisfactory.

"The establishment of the system  
has already had an important  
effect in increasing the lending pow-  
er of the local banks, in addition  
to the loan power of the federal  
reserve banks."

## DIGGING TRENCHES IN WHICH TO BURY DISEASED CATTLE

Will Kill 188 Head of Cattle at  
Yates City and Washburn To-  
day.

Peoria, Ill., Nov. 21.—Trenches  
are being dug at Yates City and  
Washburn, Ill., to bury 188 head  
of cattle which will be killed to-  
morrow morning. Herds at both  
places were found to be infected  
with the foot and mouth disease.

One hundred carloads of cattle  
were sent out of here tonight by the  
Edward Morris company and the  
remainder of the shipment of six  
thousand will be completed tomor-  
row night. The rush order to ship  
this herd to Chicago was caused by  
state and federal officials discover-  
ing evidence of the foot and mouth  
disease in sixty of a lot of 6,000  
cattle being fattened by the Edward  
Morris company at the Great West-  
ern Distillery here.

No evidences of the disease have  
been found at the Corning and  
Clark cattle barns, where over 78-  
000 head of cattle being fat-  
tened. A cinder and the feeding of hay  
has been abandoned.

No sign of the disease has shown  
itself at the Peoria Stocks Yards  
since they were disinfected and re-  
opened a week ago.

Killing Infected Cattle.

Sterling, Ill., Nov. 21.—One hun-  
dred head of steers on the J. J.  
Entwistle's farm and 75 head on  
the W. G. Lawrence farm nearby  
were killed today by Hoover and  
Clark, state veterinarians and Eason  
and Warner, government experts.

Several hundred hogs and all show-  
ing symptoms of hoof and mouth  
disease were killed. During the week  
1,500 cattle and 2,700 hogs were  
killed in Whiteside county.

Further Limiting of Quarantine.

East St. Louis, Ill., Nov. 21.—A  
further partial lifting of the quar-  
antine on livestock in the stock  
yards here, was announced in de-  
spatches from Washington tonight.  
The new order, which becomes ef-  
fective on Monday, will permit the  
shipment of cattle for immediate  
slaughter.

## War News Summarized

The latest reports from Flan-  
ders and France indicate that  
the opposing armies, except at  
isolated points, are resting, pos-  
sibly because the wintry weath-  
er has interfered with active op-  
erations on an extensive scale.

The French war office reports  
a very quiet day at all points  
except in the Woëvre district  
where the Germans who made  
five attacks in Mass in two hours  
were completely checked by the  
fire of the French artillery.

Great battles are under way  
between the Vistula and the  
Warta in Russian Poland, with  
General Von Hindenburg and  
Grand Duke Nicholas as the op-  
posing commanders and on the  
Cracow-Czenstochowa front. Pe-  
trograd reports merely that the  
fighting continues, but from  
Vienna comes an official state-  
ment that the Austrian attack  
on the Russian army in the lat-  
est district is progressing favor-  
ably and that the northeast of  
Czenstochowa two Russian bat-  
talions have surrendered.

The Socialists in Copenhagen  
who are in touch with the Social-  
ists in Berlin, estimate the men  
engaged on the Russo-German  
frontiers at 7,000,000 of whom  
3,000,000 are Germans and Aus-  
trians and 4,000,000 are Rus-  
sians.

The Italian newspapers print  
despatches from Syria and Pales-  
tine to the effect that the Turks  
and Germans are making stren-  
uous efforts to induce the popu-  
lation of Egypt to rebel against  
the authority of England.

Two sons of General Christian  
De Wet, leader of the rebel forces  
in the Union of South Africa,  
have surrendered to a magis-  
trate, according to a Reuter de-  
spatch from Cape Town.

## QUINCY PHYSICIAN AND DRUGGIST ARE ARRESTED

Inspector for State Board of Phar-  
macy Charges Illegal Sale and  
Conspiracy to Sell Illegally Co-  
caine.

Quincy, Ill., Nov. 21.—Dr. E. H.  
Toole, a well known Quincy physi-  
cian, and Charles Wetzel, proprietor  
of the Court House Pharmacy, one  
of the city's best known drug stores,  
were arrested here late this after-  
noon on warrants sworn out by John  
J. Conroy, of Chicago, inspector of  
the state board of pharmacy, charg-  
ing them with the illegal sale, and  
conspiracy to sell illegally, cocaine.  
Both men were released on bond  
and a preliminary hearing set for  
next Saturday.

Following the arrest Inspector  
Conroy stated that he believed the  
fountain source of the cocaine evil  
in Quincy had been reached and de-  
clared that outside the city of Chi-  
cago conditions relating to the sale  
of the drug were worse in Quincy  
than in any other city of the state.

The state board has been investi-  
gating the sale of cocaine here for  
weeks. Following the arrest the  
prescription records of the phar-  
macy were seized and close to a hun-  
dred prescriptions for the drug,  
of recent date, were found, all but  
two of them being signed with the  
signature of Toole.

Inspector Conroy intimates that  
he has incriminating evidence  
against a number of local whole-  
salers and that other arrests are ex-  
pected Monday.

## OFFICIALS FOUND GUILTY OF KIDNAPING

Boulder, Mont., Nov. 21.—Mich-  
ael ("Muckie") McDonald, presi-  
dent of the Butte Mine Workers  
Union at the time of the riots, was  
found guilty of kidnapping by a  
jury late tonight and his punish-  
ment was fixed at a term of three  
years in the Deer Lodge peniten-  
tiary.

Joseph Bradley, vice-president of  
the union also was convicted of kid-  
naping and his punishment was fixed  
by the jury at five years in the  
penitentiary.

## TWELVE DEATHS TOLL OF FOOTBALL

Chicago, Nov. 12.—Twelve deaths  
was the toll taken by football in the  
United States during the season  
which ended today, according to a  
record kept by a statistician here.  
Only two were college men. One  
of these died from heart disease  
and the other from injuries received  
during a class contest. The  
others were members of high school,  
preparatory or fraternal teams.  
None was more than 29 years old  
and tackling was responsible for the  
greater number of fatalities.

## DIED OF NATURAL CAUSES.

Chicago, Nov. 21.—Nicholas T.  
Burns, wealthy rope manufacturer,  
whose body was found yesterday on  
a sidewalk in the exclusive north  
shore residence district died of nat-  
ural causes, according to the state-  
ments of his physician tonight. The  
presence of poison, found by the  
coroner's physician, was accounted  
for in medicine with which Burns  
had been treated.

## COLLECT RED CROSS FUND.

New Haven, Conn., Nov. 21.—  
During the Yale-Harvard game here  
today the Yale undergraduate com-  
mittee took up \$7-  
463.91 for Red Cross work.

Chocolate Nougats, home made,  
sold by Mullens and Hamilton.

## Not Fighting for Pastime

GERMANS COMPLAIN OF VIOLA-  
TION OF RED CROSS OR-  
DER BY FRENCH TROOPS.

Washington, Nov. 21.—Count  
Von Bernstorff, the German am-  
bassador filed a note with the state  
department today complaining of  
violations of the Geneva Red Cross  
convention of July 6th, 1906, of  
which French troops are alleged to  
have been guilty.

Among the documents filed with  
the German ambassador's note is a  
sworn statement by Franz Mevissen,  
before a military court at Mersch,  
that on the night of September 7th,  
near Arlon, he saw, from his hid-  
ing place in a pile of straw, "how  
the French stabbed to death with  
their lances German mounted scouts  
who were wounded but still alive;  
during the clear night I saw them  
walk about upon the field of action  
and here and there stab scouts ly-  
ing there."

Peter Haenzler of the guard re-  
serve brigade, testified near Rehai-  
nviller, "the French kicked with  
their feet the men of our squad  
who had remained lying on the  
field and when they gave signs of  
life by screaming or groaning I  
heard shots."

Another under oath said that he  
heard a Frenchman ask a German  
soldier where he was wounded and  
when the latter replied "in the foot"  
and pointed to the spot the French-  
man shot him through the head.

Commander Schuster of the 76th  
infantry regiment reported to army  
headquarters from Bethencourt,  
another exhibit states that "on Sep-  
tember 8th, two automobiles with  
wounded carrying the Red Cross  
flag were attacked in the forests of  
Domanielle by a French cycle de-  
tachment led by an officer. Wound-  
ed and attendants were murdered  
and robbed. Only two men escap-  
ed wounded."

Dr. Scheibe, chief general physi-  
cian of the German second army re-  
ported from Warmeriville on Sep-  
tember 26th, that the "war hospital  
of the second army corps in Per-  
onne was robbed by French of all  
equipment and the staff taken away.  
Hundreds of wounded are without  
care."

## FOREST FIRES BURNING IN MANY COUNTIES OF ARKANSAS

Smoke Falls Over Little Rock Bring-  
ing Almost Night-Like Darkness.

Little Rock, Ark., Nov. 21.—Fore-  
st fires which are reported burning  
in many counties and particularly  
northwest, north, northeast of Lit-  
tle Rock today are said to be in-  
creasing in headway.

Smoke palls following the Arkan-  
sas river today swept over Little  
Rock bringing an almost night-like  
darkness.

Street lights were visible for but  
a few feet from their posts.

The last general rain in Arkan-  
sas occurred more than a month  
ago. Previous to that precipitation  
rain had not fallen for fifty days.  
railroad rights of way. At Har-  
rington of the Arkansas re-  
serve force most of the fires have  
been caused by sparks from passing  
locomotives and are burning along  
railroad rights of way. At Har-  
rington, it is said, a school house  
and church have been destroyed.

Freights Collide in Darkness.

Benton, Ark., Nov. 21.—The  
dense pall of smoke hovering over  
Arkansas as the result of forest  
fires, obscuring the view of the  
tracks, was responsible for a head-  
on collision between two Chicago,  
Rock Island & Pacific railway  
freight trains between Benton and  
Buxite early tonight. L. A. Smith

#### TALK OF COMING ELECTION.

It is understood that a Jacksonville man has prepared petitions for circulation with the end in view of having submitted to the people the question of abandoning the city's organization under the Commission Form of Municipal Government. The law declares that any city which shall have operated for more than four years under the provisions of the commission form of government act, may abandon such organization and accept the provisions of the general law.

If twenty-five per cent or more of the electors of the city unite in a petition requesting that the proposition be submitted it then becomes the duty of the city council to provide for submission of the question. It seems likely that the majority of the people would hold the view that commission form of government has not been given a long enough trial in Jacksonville. According to the law, too, the question cannot be submitted until more than four years trial has been given and it would therefore be impossible to make any change until after the city election next spring.

Already various persons are being talked of as candidates for mayor and commissioners, but thus far definite announcements have been few. It is expected, however, that in the latter part of December, or at least early in January, that the candidates will come out in the open and declare themselves, as the primary will be held in the latter part of February.

There is, however, one idea that seems to be generally accepted and that is that the women voters will be the controlling factor in the next election.

In a recent game Gallaudet defeated Penn College, 55 to 6 and Peard played a brilliant game according to the N. Y. Journal, which adds that in the third period he received a wrench on the shoulder which forced him out of the game. He is being given every attention in the hope that he can be used in the game with Georgetown U. on Thanksgiving. Peard's play on forward passes has been a big factor in his success.

## The United Christmas Giving Club

The Christmas season is near at hand. From all indications there will be many in Jacksonville this year, who need and deserve a "helping hand." Just to centralize the giving and if possible to add somewhat to the sum total of Christmas cheer, the stockholders of the Jacksonville Journal company by their officers, make this offer and suggestion. To every dollar given charitable Christmas funds, this year, the Journal will add ten per cent. If five hundred dollars is raised, the Journal will add fifty dollars, and if the sum is one thousand, then the Journal will give one hundred dollars and in like proportion for any larger sums.

Contributions will be received for the Associated Charities, the Municipal Christmas tree committee, the City Hall fund managed by Chief of Police Davis, the Salvation Army, and for any and all of the regular church organizations in the city. All money received will be placed on deposit in a local bank. Every giver will indicate the fund which she or he wishes to help. About December 20th, an accredited representative of each of the organizations mentioned will be notified of the amount in the fund, and December 23 or 24, the total sum with ten per cent added will be turned over. The Journal will have nothing to do with the expenditure of the money, but will simply act as custodian and give a pledge and receipt that the money contributed will be placed in the hands of the proper persons.

The Associated Charities is thoroughly organized and does an excellent work. Miss Weller is acquainted with the worst as well as the best elements of society in Jacksonville. She gets at the causes of poverty in each individual case and in accordance with the principles on which organized charity is operated, sees to giving the proper relief. L. W. Chambers is the president of this organization, and not long since declared that this year there is more need for associated charity work than ever before.

Chief of Police Davis comes closely in touch with cases of poverty and want. He does not make any study of the causes of poverty, in special cases. He knows all right but does not believe that a wife and children should suffer, just because by chance, some bit of the "bread" may fall to the lot of a drunken husband. The chief knows the children who need clothing and food, and a fund should be at his disposal which will help not only at Christmas time but through the weeks following as well.

The Municipal Christmas tree idea is excellent, to give temporary pleasure and aid, and the splendid committee which has been appointed will carry the plan to a successful completion. Aside from the gifts which the tree will bear, its very brilliance and splendor will create an atmosphere which will add materially to the general Christmas spirit. The brightness of such a tree, the Christmas carols which will be sung, all will go far toward forming a lasting memory for many children and grown-ups.

Then there are the church organizations, Protestant and Catholic, white and colored, all of them have their own special charity work. They are all definitely organized in such a way that they can put Christmas funds to good advantage.

There are scores and hundreds of people in Jacksonville who are willing and ready to help someone else have a real Christmas if the matter is only brought to their attention in some definite sort of way. It is in the hope of reaching such persons that the Journal has suggested the present plan. The names of donors and the fund to which the contribution has been made will be published unless the request is made to omit the name.

The plan is plain and straight forward and means simply that the Journal will add to the funds which are thus contributed for Christmas and winter charity purposes, a sum equal to one tenth of the total. There should be one, two, five, twenty-five, fifty and one hundred dollar contributions until the total sum goes up into the thousands, all to go for the exact cause which the donors consider the most worthy.

If you want to aid any one of these join early "The United Christmas Giving Club."

#### WINCHESTER.

One hundred twenty-five persons gathered at the Odd Fellows' hall Friday evening for a banquet and program and the occasion in all ways was a very enjoyable one. The program was opened by quartet numbers by Mrs. W. H. Kinison, Miss Martha Higgins, Dale Owings and George Hieronymus. After this the Rev. E. G. Prewitt gave the address of the evening, "Grit, Gall and Gumption". After the lecture music was given by an instrumental trio, consisting of Miss Winnie Pieper, piano; Russell McLaughlin, drum, and Dale Owings, xylophone. After another number by the quartet the guests adjourned to the dining hall where an excellent banquet had been prepared.

### PURE WATER TO BE FURNISHED ON TRAINS AND BOATS.

It has come to be accepted that the Federal Government cannot go into a State and dictate to the people just how they shall live, even though it be for their own welfare and the protection of their health. As far as local health laws are concerned each State is responsible.

However, when it comes to matters where more than one State is concerned, where the welfare of one State is being menaced by the carelessness of another, and in all matters relating to interstate commerce, the Federal Government has full control.

Many states have no laws regarding the protection of water supplies. The Federal Government, on the other hand, has regulations which apply to all water furnished to the public for drinking purposes on trains or boats engaged in interstate traffic. The government requires that only pure and safe water shall be furnished for drinking purposes, and in order that there may be no question as to what pure water is, the Treasury Department, upon the recommendation of the Federal Public Health Service, has officially adopted a standard for pure water. By this standard the water furnished for drinking purposes on all trains and boats will be judged. Because of this action the drinking water furnished on trains and boats will in most cases be a safer and better drinking water than that furnished by local water supplies. The trains and boats will be allowed to take water only from those sources ascertained to be safe and pure.

The standard for pure water officially adopted was one drafted by a commission appointed for the purpose by the Secretary of the Treasury. This commission, which studied the subject for nearly two years, was composed of the following eminent scientists:

John F. Anderson, Director, Hygienic Laboratory, chairman of the commission, Washington, D. C.  
Edward Bartow, Director, Illinois Water Survey, Urbana, Illinois.  
Charles C. Bass, Director, Labora-

tory of Clinical Medicine, Tulane University, New Orleans.

S. J. Crumline, Secretary State Board of Health, Topeka, Kansas.

## CHAMPIONSHIP FOR JACKSONVILLE HIGH

ON EQUAL FOOTING WITH WEST AURORA FOR TITLE.

Local Eleven Vanquishes East St. Louis High on Illinois Field by Score of 91 to 0, and Last Game of Victorious Schedule—Will Send Challenge to West Aurora.

Season's Record.  
J. H. S. 26; Hannibal 0.  
J. H. S. 21; Alton 0.  
J. H. S. 28; Hannibal 0.  
J. H. S. 7; Peoria 6.  
J. H. S. 73; Beardstown 13.  
J. H. S. 23; Quincy 0.  
J. H. S. 91; East St. Louis 0.  
Totals, 1269; Opponents 19.

Jacksonville high school eleven jumped into the limelight as down state champions for the state title Saturday afternoon on Illinois field, when they completely swamped the East St. Louis high by a score of 91 to 0, while Springfield clipped the wings of the heretofore undefeated Greenfield team, who was bidding strong for the honors by a score of 21 to 0. Jacksonville through their victory of Saturday completed a schedule of seven games, without a defeat. Four teams they shut out and piled up a total of 269 points against their opponents' 19. The teams played were some of the largest towns of the state and also the Hannibal fall squad.

It has been a number of years since the state championship has been simmered down to two teams, heretofore the games have been such that several teams have been claiming the honors, and only by comparative scores could the positions of the elevens be determined in the percentage column. Every team down state has lost the right to the title except Jacksonville, Springfield, Decatur, Champaign, Urbana, Peoria Central, University high, Quincy, Greenfield being defeated while Rockford, Rock Island, Moline, Joliet, Kewanee have been eliminated.

Jacksonville will send a challenge to Aurora tomorrow and a game will probably be arranged for this week. West Aurora and East Aurora play on Thanksgiving day, but it is probable that in view of Jacksonville's claim the northern teams might call their game off.

Coach Buland is deserving of much praise in putting into the field such a winning team. He started the season with only four old men and now has an aggregation of championship calibre. He has been deprived of the services of several good men in some of the games and star half back Haigh received an injury just before the Peoria game which kept him out for the rest of the season.

Yesterday's Game.  
Football enthusiasts who journeyed to the college campus Saturday afternoon, saw Jacksonville give East St. Louis one of the worst drubbings they have had this season, ending in a score of 91 to 0. When the visitors lined up for play it looked as though the local lads would have their hands full, as East St. Louis is composed of some big fellows and looked fast. But there was no occasion for alarm as was demonstrated after a few minutes of play.

Jacksonville received the kick off when the game started and after the second down Killbrow made a big run of 30 yards and after another gain by Reynolds, Maddox was sent over for a touchdown. Reynolds kicked goal, seven points being made in less than a minute of play.

East St. Louis kicked off again and after a couple of end runs, Maddox made a brilliant run and Reynolds carried the ball over for the second touchdown. Reynolds failed to kick goal. The game was so one sided that expector watching the local lads work, the game was not very exciting from the spectators point of view. Only on two occasions did East St. Louis get away with the ball for a good gain but both times runners were grazed before any damage was done.

Great Line Smashing.  
The line smashing of the Jacksonville team was great and they opened up holes in the visitors' line large enough to let a horse walk through. The Jacksonville team never worked better and fans on the sidelines declared that the squad could not have been stopped by any eleven in the state. East St. Louis was helpless before them and although the visitors had downed one of the strongest teams of St. Louis, they failed to show up against the speedy local eleven. At the beginning of the contest they displayed an attack of stage fright, from which they never seemed to recover. They had a number of good plays and some good forward passes, but they were never able to get away with them. A. J. Gummshelmer, a former graduate of Illinois is coach of the East St. Louis team.

Unless a game can be scheduled with Aurora to be played here it was the last contest the local lads will be seen in this season. Every man on the team could be praised. The work of E. Pyatt was watched with interest yesterday and that of Maddox. If it was the last game that Killbrow is to play in the star full back certainly demonstrated his ability and the way he plowed through the line and runs the ends was wonderful. "Killy" has been a big cog in the eleven. Jacksonville performed the feat of making 33 points before East St. Louis got possession of the ball, something that is seldom seen in any football game.

The following was the lineup:

J. H. S.	Position	E. St. Louis
Boxell	re	White
Meyer	rt	Orr
Robinson	rg	Brennan

## PEOPLE OF VIENNA USED TO TRAGEDY OF WAR

VIENNESE ARE CONFIDENT OF SUCCESS.

Government Frank in Its Reports of the War—Takes Public Into Its Confidence—Living Conditions in Vienna About Normal—800 Americans Now in Austro-Hungary.

Vienna, Oct. 30.—Correspondence of the Associated Press—It cannot be said that the people of Vienna are greatly impressed by the tragedy of the war. They seem to have become used to it. The cafes are less crowded than usual and the playhouses may have no occasion to be overjoyed with box office returns but the fact remains that both classes of entertainment are doing a fairly good business. Among their patrons are many invalids from the front, officers and men who limp a little or have an arm in the sling or a bandaged head. But the convalescent ones look happy enough and effectively belie the claim that Austro-Hungary has had trouble getting its men to the front. The determination to fight to the proverbial finish may not be as grim in Vienna as it is in Berlin, but it is there nevertheless.

Meanwhile every effort is being made by the government and private Red Cross organizations to succor the wounded. Thanks to the fact that Vienna for several decades has been a leader in medicine and surgery, there is no lack of able professional personnel. A large number of sleeping car trains convey the wounded to the capital in all comfort. All sorts of inoculations are employed to guard against a spread of camp or other disease, cholera, for instance. It is said here that this disease is now well under control in the Austrian lines.

The Viennese are confident of success. For this reason the government takes the public into its confidence. Quite frankly the announcement was made yesterday that German and Austro-Hungarian troops have been obliged to "ausweichen" (get out of the way) of a large Russian force which had crossed the Vistula between Warsaw and Ivanograd. A new "grouping" would follow the communication said.

Living conditions in Vienna are about normal. Austro-Hungary produces much grain and while the price of flour has advanced a little the raise has not been high enough to influence any but the poorest households. Moreover the advance affects only wheat flour. The price of wheat is said to be the same as before the war. Nor is there a general scarcity of work. Some of the plants which shut down when the war started have opened again, nearly all money is back in circulation and a reduction of the interest rate by the Austro-Hungarian bank has made it possible to obtain loans advantageously.

The close military co-operation between Germany and Austro-Hungary has a good parallel in the economic assistance one empire gives the other. All interests related to the war have been pooled, as it were. One gives to the other what can be spared. Following the advice of the Prussian minister of agriculture that as much land as possible be given over to the raising of winter cere-

als the Austrian government and that of Hungary have done likewise. In Bohemia and Moravia the stand of winter wheat and rye is exceptionally good. Similar conditions are reported from Hungary and other parts of the empire and it appears certain now that the soldiers of the two empires will not be conquered by famine.

According to Ambassador Penfield there are but about 800 Americans left in Austro-Hungary. Of these many are permanent residents and a large number medical and art students who have decided that the country is safe enough for them. Like all other American legations and embassies, the local embassy had its hands full during the first days of the war. It managed however, to meet the situation without difficulty and at present Mr. Penfield is principally occupied with the transmission of diplomatic correspondence from one country to another. So broad is his field that he has become known as the "diplomatic corps" to the Austro-Hungarian government, representing as he does all the countries with whom Austro-Hungary is at war.

#### STEVENSON COLLECTION

New York, Nov. 21.—Admirers of Robert Louis Stevenson in all countries regret the scattering here next week of the last great collection of the novelist's letters, manuscripts and curios. The collection is by far the greatest Stevenson collection, and is owned by his stepdaughter, Mrs. Isobel Strong, who inherited it from her mother, Mrs. Robert Louis Stevenson, whose death occurred at Montecito, near Santa Barbara last February.

With the sale of this collection, Stevenson's literary remains will be scattered to the four corners of the earth. It is not unlikely, however, that many of the best manuscripts and curios will be bid in by the Widener Memorial Library at Harvard.

The library which forms a part of the collection was that in the Stevenson house in Samoa. It consists of some 500 volumes, some of which belonged to Stevenson's father, Thomas, and some to his grandfather, Robert, and bear their autographs.

### TELLS OF SUFFERING OF DEVASTATED BELGIUM

Tragedy of the Country is Plainly Written in Grave Expressions of the Soldiers.

Dunkirk, France, Nov. 11.—Correspondence of the (Associated Press)—The people of Dunkirk heard the other morning that the German general staff has either annihilated or a siege in store for them as a part of the campaign against Calais. However, the hours lengthened into days without an attack and the people were reassured by the sight of the English fleet, which, in plain view from the heights around the town was sweeping the German position in the Dunes behind Neuport.

All the tragedy of Belgium—the maximum of physical endurance, seems to be visible in the grave expressions of the soldiers who have been making a stand for the last little free corner of their country. The depressed feeling that these faces inspire was increased when the other day a file of nearly 400 field guns was dragged through by horses that looked as weary and melancholy as their riders. They were the guns that had defended Antwerp as well as they could. For lack of ammunition bought from the Krupps for delivery in June but delivery of which was deferred they were obliged to use French shells that were not fitted to them and which consequently tore the rifling out. The guns were going to the scrap-heap and the horses after being tested will draw back French three inch field guns in their places.

After the procession of worn out guns came more refugees who were perhaps the most disheartened of those who have passed through. Some of them were at Furnes the other day when a brief lull in the fighting gave the tired troops a needed repose and when the report came that the Germans were retiring from before Dixmude. The soldiers were lolling in the warm sunshine in the streets and the officers calmly taking their afternoon tea when the bursting of a shell in a three story building on the historic square opposite the city hall brought them back to the realization that they were still near the front.

The stone front of the building fell into a pile in the street. A crowd gathered to look for the German flying machine which was supposed to have done the damage but other shells fell in the outskirts of the town. Then the steady fire of an artillery duel was heard from all along the front. The British fleet joined in sending in its projectiles over the town into the German lines. The refugees waiting for their passes at the station were obliged to turn further south, accompanied by some of the inhabitants of Furnes, though most of the latter stuck to their homes.

The Belgians soldiers who after the retreat from Antwerp were to be given a long rest, were once again drawn into the thick of the fighting. King Albert, in spite of the efforts of his ministers to keep him out of danger, was there with his men on the firing line. They found renewed energy in his example and fought with the same fury as before Liege for the few square miles of Belgian territory that remained unoccupied by the enemy.

Trying to Arouse Egypt.  
Rome, Italy, Nov. 21.—News despatches from Syria and Palestine.

time to the Italian newspapers say the Turks and the Germans are making great efforts to arouse the population of Egypt to rebel against British authority. With this object in view, it is said, the Turks are spreading the report that the Khedive is on his way from Constantinople to Egypt to assume command of the Egyptian troops.

The Turks also have announced, the advices add, that Essad Pasha, the Albanian leader, is only waiting for the Musselmans in Egypt to rise to put himself at their head and march against the British.

Freezing Weather Sets In.  
Paris, Nov. 20.—Freezing weather has set in throughout the length of the battle zone in France and Belgium, the temperature today varying between 25 and 28 degrees above zero.

Snow is falling, especially in northern France and in the Vosges Mountains and also at Marseilles. The French soldier wears a woolen band, provided by the government, which he wraps four or five times around his body. He also oftimes wears four or five shirts, adding an extra one from time to time as the temperature falls.

French Official Communication.  
Paris, Nov. 21.—The following official communication was issued by the war office tonight:  
"The day has been very quiet. There is nothing of interest to report except that in the Woivre district in Eparges, five German attacks were executed in mass in the space of two hours and stopped abruptly by the fire of our artillery."

Dead Days

The world went well when I was young; no gossip had an evil tongue, but people went from shack to shack, to praise a man behind his back. We had the reign unbroken, then, of peace on earth, good will to men. The world grows better, I am told; it may be so—I'm growing old, and everything that's dead looks fine. I want no modern things in mine. What tales were told, what songs were sung, in those brave days when I was young? Then giants piled the pen inspired, and noble bards sat up and yired; but note the books they're printing now, adapted to the lowest brow. What sort of music do we know? A rag-time strain by Jungle Joe. To dig up music that will last, you have to rake around the past; to find a book that isn't rot, you look to Thackeray and Scott. There's nothing now of lasting worth, that I can see, in all the earth. Perhaps the old world's not to blame; perhaps I'm weary of the game, as people tire when they grow old, and hands and hearts and feet are cold. And so we'll let it go at that; ambitious Youth is at the bat.

### NOTES FROM THE LABOR WORLD.

Improved business conditions are reflected in many of the trades.

A demand for 30 cents an hour was made by Newark, N. J., teamsters, and they were obliged to strike to get it.

It is also reported that over 9 per cent of the total population of Australia are union men; and that England has over 8 per cent.

The fur manufacturers and fur workers, after lengthy negotiations, have agreed in Boston on a scale of wages.

Some of the typos seek to recover from President Lynch the \$19,000 voted to him at the recent international convention.

Figures at hand show an increase of 40,000 union men in Canada in two years; the total, this year, is 175,799.

A great victory for unionism was registered recently in Cleveland, when the head of the public schools was found guilty on contempt for ousting union teachers.

Because both sides in a controversy were not explained to members, a St. Louis judge has restrained the trainment from calling a strike there.

Praise of the Clayton Act and condemnation of war as an added burden on the workers were two measures most heartily endorsed at the Federation convention.

A hundred-year strike has just ended in London. The printing pressmen of the London Times in 1814 struck when steam presses were installed. The Times decided after a hundred years that the union was a good thing to recognize.

It cost \$4,383,510 to conduct 957 strikes in America last year. But the result benefited 74,330 workers, according to the report presented to the delegates at Philadelphia.

The retirement of Judge Daniel Thew Wright at Washington is hailed with glee by union men. His endeavors to put Gompers, Mitchell and Morrison in jail are vividly recalled by his resignation while under fire.

## ILLINOI UNDISPUTED CHAMPS OF THE BIG NINE CONFERENCE

Illinois Defeats Badgers 24 to 9—Gophers Win Second Place—Yale Suffers Greatest Defeat of Its History at Hands of Harvard—Other Games

Madison, Wis., Nov. 21.—By defeating the University of Wisconsin today the University of Illinois became the undisputed champions of the Big Nine conference having won every game on their schedule. Illinois won easily by 24 to 9, scoring three touchdowns and a field goal to one touchdown and a safety for Wisconsin.

The first Illinois touchdown came within two minutes of play, when Macomber dashed around the left end for a 40 yard run. Later Pogue's open field running brought substantial gains, repeatedly, netting two touchdowns and apparently taking the hope out of the Wisconsin supporters.

Much was expected of the Wisconsin line, but Captain Keeler, McMaster, Kennedy, Mucks and Buck found the men they faced proved equally big and fast.

Illinois excelled in the ability of the backfield to get away for long runs, and Wisconsin players were slow to get under way in critical times.

Wisconsin started the second half playing an open game, which advanced the ball from their territory to a touchdown. They scored a safety when Macomber fumbled back of Illinois goal, near the close of the third period, adding two points and ending Wisconsin's scoring for the day.

Neither team was highly successful with the forward pass. Macomber's kicking outclassed anything seen on Camp Randall this year.

**Gophers Win Second Place.**  
Chicago, Nov. 21.—Minnesota's great forwards today earned for the Gophers second place in the conference football standing. Tearing big holes in the Chicago line they cut paths through which the Williams backs crashed for two touchdowns to the Maroons one, winning by 13 to 7. A gallant fight by Chicago and two or three turns of fortune nearly put a different complexion on the game but in the final period, after the Maroons had led in the first three, the Gophers ploughed their way to a final touchdown and victory.

On form, Minnesota should have had two more touchdowns. Twice the whistle prevented a Gopher score, once when the ball was in their hands on the one yard line and the half ended, and again just as the game ended, with the oval less than a yard out. On the other hand, the Maroons stopped the Gophers within a few feet of the goal in the first quarter through sheer courage.

Chicago had its share of hard luck. Starting the game with a team weakened by injuries, Coach Staggs was compelled to shift his backfield and rearrange his line before the end of the contest because of additional accidents. Captain Desjardien, struck on the head, was forced out of the game in the final quarter and with him on the side lines the Maroon line broke before the fierce onslaughts of the northwesterners and the deciding touchdown was made.

Captain Desjardien was so badly hurt during the last quarter that he was taken to a hospital. Quarterback Russell who played in spite of the injured shoulder received in the game a week ago, lasted until the finish but ended the game with the ligaments hurting him worse than a week ago. Both he and Desjardien may be laid up for some time.

**Harvard Swamps Ell.**  
New Haven, Conn., Nov. 21.—Harvard's football juggernaut crushed the Yale eleven by 36 to 0 in the Blue "bow" here today while 71,000 spectators watched the gridiron rout in amazement.

The Crimson machine rushed up and down the field almost at will, scoring in every one of the four periods of play and when the sixty minutes of battle had elapsed had succeeded in rolling up the largest number of points ever registered against an Ell eleven. With the exception of the 1885 Yale victory of 48 to 0, it was the greatest score ever made in the thirty-four games played since 1875.

The one-sided score fails to give the slightest inkling of the thrilling scope of the play or the remarkable strategy and individual brilliancy with which the game bristled. Surrounded by more than a third of a mile of towering tiers of humanity, the two elevens struggled back and forth the length of the gridiron, every second or third play bringing the thousands to their feet, so intense was the excitement and so spectacular the play. No game of equal caliber on eastern football fields in many years has provided such a spectacle.

The Yale cohorts remained loyal to the last, although they realized that the Blue had been but a foil for one of the greatest elevens of all time. A careful analysis of play clearly indicated that no team, under the modern rules, has reached the heights of offensive and defensive strength shown by the Crimson this afternoon. In accumulating its total of 36 points, Harvard scored in every period and by all methods except the safety.

**Dartmouth 40; Syracuse 0.**  
Boston, Nov. 21.—A versatile Dartmouth eleven with bull like rushes, sweeping end runs and accurate passes by its repertoire of attack overwhelmed a heavier team from Syracuse University today forty to nothing. Man for man, the New Hampshire eleven excelled its opponents, took advantage of nearly every one of the frequent fumbles of Syracuse and used the forward pass successfully, while Syracuse could not make its open game work. Dartmouth's scoring machine got into action almost immediately and scored in every period.

**SALES IS FINE FOR KIDNEYS, QUIT MEAT**  
Flush the Kidneys at Once When Back Hurts or Bladder Bothers.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, try either of the passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is unexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## FAVORITE BASE BURNERS

FOR WINTER COMFORT

It's all in the flues

"Finest Heating Stove in the World"

## Have You Seen This Poster?

It Tells the Story of a Wonderful Heating Stove

We wanted you to get acquainted with the Favorite Base Burner—that's why we had the city covered with these beautiful colored posters that you see everywhere.

We knew that if you once became familiar with the superior points of the Favorite as compared with other base burners—learned that it actually has no equal in beauty, durability, and fuel economy—you would buy no other heating stove.

The Favorite will keep every part of your house warm all winter, and do it with from 2 to 3 tons of coal. Every square inch of this unequalled stove radiates volumes of heat which constantly circulates throughout the home, maintaining an even temperature, night and day.

The Favorite is built in a plant erected especially for the production of fine stoves. Only expert workmen are allowed to take part in its construction. Sixty years of stove experience are concentrated in it.

The many exclusive features that make the Favorite

supreme among heating stoves are all patented, and can be found on no other stove. You will find the principle reason why it is the best in the celebrated Separated Flue construction—and this feature is patented. Why not save two or three tons of coal this winter with a Favorite? You will

get more warmth and satisfaction, too.

### Here is Our Offer

Put the Favorite in your home. Try it for thirty days, two months, all winter, if you want to. Then, if you do not find that everything we have said of it is true, we will take back the stove, and refund your money. Can you think of a fairer proposition than that?

We could not afford to make this offer if we did not KNOW that the Favorite would back us up and do just what we claim for it. But we are positive that after you once tried the Favorite you would not part with it for twice what it cost you, if you could not get another just like it.

If money counts—if comfort counts—if the health and happiness of your family count—you cannot afford to buy or use any heating stove but the Favorite.

Nature's Willing Workers are  
Always at Your  
Service.

If it is eczema, pimples, boils or worse—your safeguard is S. S. S., the famous blood purifier. It is always lined up to attack diseased blood. And it always does the work. It does the work after disappearance, after alleged specialists, mercury, iodides, strychnine, arsenic and other destructive drugs have laid a waste of the system and left a host of invalids guessing as to what is to come. S. S. S. is not such a drug as the eczema or ignorance of man would be able to produce. It is Nature's wonderful contribution to our necessities. It is wonderful because it can not be imitated; can not be made any other way than to assemble Nature's products and produce what a host of men know as S. S. S., the world's greatest medicine. There are people everywhere that had an old sore or ulcer that defied all the salves known. And yet S. S. S. taken into the blood just naturally put into that old sore the elements that made new tissue, new flesh, and covered it with a new coating of healthy skin. Get a bottle of S. S. S. today of any druggist and be on the way to perfect blood health. But beware of substitutes. For special advice consult the medical department, The Swift Specific Co., 55 Swift Bldg., Atlanta, Ga. It is free and has helped a multitude.

**SURE WAY TO GET RID OF DANDRUFF**

End Itching Scalp and Stop Falling Hair—At Once.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

## MORE FACTS ARE GIVEN ABOUT THE WAR TAX

Collector Pickering Throws Additional Light on Revenue Schedule.

Collector of Internal Revenue J. L. Pickering's resume of Schedules A and B, that part of the War Revenue measure of October 22, 1914, applicable to legal documents, bills of lading, perfumery, cosmetics, chewing gum, etc., was mailed yesterday to deputy collectors in this Collection District.

In the resume of the Act published in yesterday's issue, applying to beer, wines, bankers, brokers, billiard and bowling alley owners, theatres, pawnbrokers, etc., an error was made in some cases in giving the tax due for the period ending June 30, 1915. Uncle Sam always collects the fractions of cents. If the tax is two-thirds of 5, the correct amount is \$3.34, and not \$3.23 for example. Adhesive Stamp Taxes—Schedule A.

Penalties are provided for signing or issuing documents requiring an adhesive revenue stamp, unless the stamp is affixed. The law is operative on and after Dec. 1, 1914. The stamp must be dated and cancelled with initials of the person affixing it. Documents cannot be recorded, registered, sold or transferred if the stamp is missing. The following exemptions are noted:

Bonds or certificates of indebtedness issued by officers of federal, state, or local corporations exercising the taxing power.

Stock and bonds issued by co-operative building and loan associations, mutual ditch or irrigating companies.

Stock certificates deposited (and agreements to deposit) as collateral to secure a loan.

Sales or agreements to sell products or merchandise actually delivered, or accompanied by bills of lading or vouchers showing same are actually in course of transportation.

Bank notes issued for circulation.

Newspapers shipped by express to points within the county of publication.

Service telegrams and conversations relating to business of the telephone or telephone companies, or railroad companies; official communications by government officers and employees.

"Conveyances"—No tax upon any instrument to secure a debt.

Fire insurance—Purely co-operative or mutual companies.

Life, personal accident, health and workmen's compensation (if carried on by and not for profit of members).

Passage tickets to foreign ports costing \$10, or less.

Powers of attorney or proxy for voting at elections or officers for religious, literary, charitable societies and public cemeteries.

Papers necessary to collect claims from the United States for pensions, etc.

Adhesive stamps are required on the following documents:

Bonds, Debentures, or Certificates of Indebtedness issued on and after Dec. 1, 1914, by any association, company or corporation—on each \$100 of face value or fraction thereof, five cents.

Certificates of Stock—on each original issue, whether on organization or reorganization, by any such association, company or corporation—on each \$100 of face value or fraction thereof, five cents.

Sales or Agreements of Stock—on each \$100 of face value or fraction thereof, five cents.

Sales or Agreements to Sell, or Memoranda of Sales or Deliveries of Transfers of Shares or Certificates of Stock in any association, company or corporation, whether made upon or shown by the books of the association, company or corporation, or by any assignment in blank, or by any delivery, or by any paper or agreement or memorandum or other evidence of transfer or sale, whether entitling the holder in any manner to the benefit of such stock, or to acquire the future payment of money, or for the future transfer of any stock—on each \$100 of face value or fraction thereof, two cents.

(But no tax imposed upon an agreement to deposit stock certificates as collateral for money loaned thereon, which certificates are not actually sold. And no tax is imposed upon such stock certificates so deposited).

The stamp shall be placed upon certificates, unless of transfer is shown only by books, in which case stamp shall be placed thereon.

If certificate is assigned in blank, the seller shall make and deliver to buyer a bill or memorandum of sale to which stamp shall be affixed, showing date, name of seller, amount of sale, and matter or thing to which it refers.

Board of Trade Exchange—upon each sale or agreement to sell any products or merchandise at— or other similar place—either for present or future delivery, for each \$100 in value of said sale or agreement to sell, one cent.

On every operation the seller shall make and deliver to the buyer a bill or memorandum, to which a stamp shall be affixed, which shall be dated, name of seller, amount of sale, and matter or thing to which it refers. Applies to the agent, also. Does not apply to merchandise or products actually delivered or accompanied by bill of lading, etc.

Promissory Notes—and for each renewal of same, for a sum not exceeding \$100, two cents.

For each additional \$100 or fractional part thereof, two cents.

Express and Freight—It is the duty of the carrier to issue to the shipper, if the charge exceeds five cents, a bill of lading, to which shall be attached and cancelled a stamp, one cent.

Newspapers—A shipment to different points by the same train, when enclosed in one bundle at point of shipment, shall be considered one shipment and in lieu of bill of lading the publisher on or before the 15th of each month, shall file with the collector a report under oath,

showing number of such shipments during the preceding month, to which report shall be affixed and cancelled stamps equal in value for each shipment of one cent.

Said report shall not include shipments by mail or by train within the county where published.

Telegraph and Telephone Messages—Owners or operators shall make within thirty days after the expiration of each month a sworn statement to each collector in each of their respective districts, stating number of dispatches, messages or conversations originated at each of their respective exchanges, toll stations or offices, during the preceding month, for which a charge of fifteen cents or more was imposed—for each, to be collected from person paying for same, in addition to charge of service, a tax of one cent.

Which tax shall be paid to the collector of their district. If message or conversation on telephone line, only one cent is imposed. Service messages and conversations on company business are exempt. Also government business.

Bonds—indemnifying or surety, or of any description, not otherwise provided for in this Schedule, fifty cents.

Certificate of Profits—or memorandum showing an interest in property or accumulations of any company, association or corporation, and all transfers thereof—on each \$100 of face value or fraction thereof, two cents.

Certificate—Any certificate of damage, or otherwise, etc., issued by port warden, marine surveyor, etc., twenty-five cents.

Of any description, required by law, not otherwise specified in this act, ten cents.

Contracts—issued by brokers or persons acting as such—as broker's notes, or memorandum of sale of any goods or merchandise, stocks, bonds, exchange, notes of hand, real estate, or property of any kind or description—for each note or memorandum of sale, not otherwise provided in this act, ten cents.

Conveyance—deed, instrument or writing, conveying lands, tenements or other realty, when the consideration or value of the interest or property conveyed, exclusive of encumbrance, exceeds \$100 and does not exceed \$500, fifty cents.

For each additional \$500 or fractional part in excess of \$500, fifty cents.

No tax upon an instrument given to secure a debt.

Fire insurance—each policy, or renewal thereof, upon property of any description, by perils of sea or inland waters, fire, lightning, or other perils—upon each \$1 or fraction thereof of premium, one-half cent.

Co-operative mutual fire companies and policies of reinsurance are exempt.

Surety, Casualty, Guarantee, etc.—each policy issued or renewed by any person company, etc., transacting the business of Fidelity, Employers' Liability, Plate Glass, Steam Boiler, Sprinkler, or other branch of insurance, (except life personal accident and health, and Workmen's Compensation carried on by members thereof not for profit, but solely for protection of members) Guarantees, Liability or Surety including titles to real estate or mercantile credits—upon each \$1 or fraction of premium charged, one-half cent.

(Stamps should be affixed and cancelled by person receiving the premium.)

Steamer Passage—For each passenger ticket sold in the U. S. by any vessel to a foreign port or place. Costing not exceeding \$30—\$1.

More than \$30, and not exceeding \$60—\$3.

More than \$60—\$5.

\$10 or less exempt. (Stamp to be affixed by person selling the ticket.)

Seats in Palace or Parlor Cars—To be paid by company selling them—for every berth and every seat sold, one cent.

Proxy or Power of Attorney for Voting, at elections for officers of any incorporated company, or association, ten cents.

(Except religious, charitable or literary societies, or public cemeteries).

Power of Attorney—General, twenty-five cents. (But no stamps are required upon papers to collect claims from the U. S. for pensions, back pay, etc.)

Protect—Upon protest of every note, bill of exchange, acceptance, check or draft, etc., twenty-five cents.

The person using or affixing stamps to documents shall write or stamp thereon his initials, and the date upon which the same was attached and used.

Perfumery, Cosmetics, Etc.—Schedule B.

Includes every packet, box, bottle, pot, phial, or other enclosure, containing any essence, extract, toilet water, cosmetic, vaseline, hair oil, dye or restorative, tooth wash, paste aromatic cachous, etc.—if such packet, etc., shall not at retail exceed the sum of five cents, one eighth cent.

If it exceeds 5c, and not 10c, one fourth cent.

If it exceeds 10c and not 15c, three eighths cent.

If it exceeds 15c and not 25c, five eighths cent.

And for each additional 25c or fractional part thereof, five eighths cent.

Chewing Gum, or Substitutes.

For each box, carton, jar, etc., of not more than \$1, actual retail value, four cents.

Exceeding \$1, for each additional \$1, or fractional part thereof, four cents.

All articles and preparations above mentioned (Schedule B) in hands of manufacturers or dealers, wholesale and retail on and after Dec. 1, 1914, are subject to the tax. Articles in hands of wholesale and retail dealers shall have the proper stamps affixed at the time the package is sold at retail.

Stamps enumerated above shall be so affixed on the box, bottle, or package that in opening the same,

or using the contents thereof, the said stamp shall be effectually destroyed.

WOMAN'S COLLEGE NOTES.

The Lambda Alpha Mu gave their annual reception last Monday night at the Peacock Inn. Quite a number of guests were present and the occasion was a most enjoyable one for all present.

A large number of the students and faculty attended the Darwin lecture which was given in the 8th grade building last Thursday night.

Miss Nellie Knopf, the head of the School of Fine Arts, has returned from Chicago where she has been attending the art exhibit which has been held there for some time. One of Miss Knopf's paintings has been in the exhibition.

The School of Expression had a most delightful informal recital Wednesday evening in the private recital hall of the department. The program was given as announced in the papers.

The physics department is having installed a high grade set of storage batteries for demonstration purposes in the department.

On Monday the Sophomores and Freshmen class and the hike clubs will have a hare and hound race.

CONSERVATORY NOTES.

Mr. Munger, who gives his piano recital in Northminster church next Tuesday evening, November 24th, will play on his program a Waltz in E flat major by Frederick G. Meyers, of the School for the Blind.

Mr. Meyers has been a student of composition under Mr. Kritch for several years and composed this waltz last spring, dedicating it to Mr. Munger. All friends of the Conservatory are cordially invited to attend the recital, which begins at eight fifteen.

Mabel Forrester will sing a solo, with violin obligato by Ruth Lawson, at the Christian church Sunday morning, November 22nd.

Mr. Kritch and Mr. Munger will spend the Thanksgiving recess from Thursday November 26th, till Monday, November 30th in Chicago.

Miss Jerauld will be in Vandavia, Ill. her home and Miss Forsythe will go to Chicago.

Mrs. Wilson will be in St. Louis next Saturday, November 28th to hear the joint recital of Alma Gluck and Efrim Zimbalist.

A students' recital will be given in Recital Hall on Monday afternoon, November 23rd, at four o'clock. The public are invited.

ILLINOIS COLLEGE NOTES.

Principal Walter Leslie Harris and Professor Percy F. Whisler, of the Department of Mathematics, went to Champaign to attend the high school conference. On their way back to Jacksonville they stopped at Peoria to see the Illinois-Bradley game.

President Rammelkamp has received word that Mr. F. A. Vanderlip, Hon. '06, president of the National City Bank of New York City, is recovering from an attack of typhoid. His progress and condition are said to be "altogether satisfactory."

Dean Cochran will play a violin solo at the chapel exercises Tuesday morning.

The Social club gave a children's party at Academy hall Saturday evening. Each member had the privilege of inviting one guest.

As previously announced, the college is planning to have a "Home Coming" for alumni and former students in connection with the Thanksgiving day football game. Special invitations have been sent out to all alumni and former students in the state of Illinois.

The College Book Store expects to publish again a Christmas calendar. The material is now being prepared. The calendar promises to be even more attractive than the one issued last year.

CONSUL WEDS SOCIETY GIRL.

Philadelphia, Pa., Nov. 21. A pretty romance culminated here today when Theodore Jaseckel, United States Consul at Stavanger, Norway, took as his bride Miss Violet Ridgway, one of the most prominent society girls of this city.

With only a month's leave of absence allowed him, the young consul, who lately entered the diplomatic service, crossed the seas to claim his bride and immediately after the wedding today the young couple began their journey to the coast of Norway.

Miss Ridgway has been a conspicuous figure in the social life of this city, and a great favorite. She has been in Paris visiting Countess de Fermon and only recently returned to prepare for the wedding. Mr. Jaseckel is a New Yorker, and completed his studies at Williams College and Columbia Law School.

HELD APLON SALE.

The members of one of the aid societies of the State Street Presbyterian church held an apron bazar in the Chambers building on West State street Saturday and were successful in disposing of a greater portion of their garments. The committee in charge of the sale were Mrs. James W. Brown, chairman, and Mrs. Ollie Parker, Mrs. A. D. Brown and Mrs. John Sibert.

Finale of 3rd Act of "September Morn" Coming to the Grand Tomorrow Night

## COMING Grand Opera House, MONDAY NOVEMBER 23

Rowland & Clifford's Big New LaSalle Opera House (Chicago) Musical Comedy—Tangoesque Success,  
—CALLED—

## September Morn

Book and Lyrics by Arthur Gillespie, Music by Aubrey Stauffer, Dances by Virgil Bennett, Staged by Frank Tannehill, Jr.

**All FUN MUSIC TANGOS** || **DELIGHTFUL COMPANY OF 50**

Superb Chorus Effects, Beautiful Costuming.

The biggest of all Laugh Show Hits with Tickling Tunes—A great company and dazzling ensembles is Rowland & Clifford's latest out of the ordinary production.

The story goes with a hurrah as Rudolph Plastic, a would-be artist, who claims to have painted the celebrated Chaba picture called, "September Morn," (but who in reality cannot paint the side of a barn and do it well) continues to get himself in tight places. His antics go with a scream. An actress claims to be the original model of the popular picture and she instructs her press agent to boost her as the real "September Morn" who was not afraid to bathe in the open or the lake or whatever it was. The dodging of Rudolph and the actress create no end of joyful lines and situations. Prices 50c to \$1.50.

## SUGGESTIVE MENUS FOR THANKSGIVING

SEASONABLE COOKERY FOR  
TASTES OF VARYING MEANS.

Miss Isabel F. Walker, Head of the Department of Home Economics, Illinois Woman's College, Submits Recipes for November Festival—Many Palatable Dishes.

At the request of the Journal, Miss Isabel F. Walker, head of the Department of Home Economics at Illinois Woman's College, prepared two menus for Thanksgiving dinner, with the recipes necessary in the preparation. Two menus have been suggested, one simple and the other for a dinner somewhat more elaborate.

As head of the home economics department Miss Walker is doing work of high proficiency and the recipes given herewith will on that account be all the more valuable. In both menus the aim has been to secure balance without the sacrifice of palatability.

### MENU.

**Grapefruit Cocktail.**  
**Consomme**  
**Celery**  
**Roast Turkey.**  
**Glazed Sweet Potatoes**  
**Creamed Onions**  
**Dinner Rolls**  
**Macaroon Ice Cream.**  
**Rolls**  
**Wafers**  
**Olives**  
**Nuts**  
**Coffee.**

Unless specified all recipes call for level measurements.

**Grapefruit Cocktail.**  
Serve sections of grapefruit pulp in long-stemmed glasses. Sprinkle 1 tsp. sugar over the top. Place a maraschino cherry on the top. Allow 1-2 grapefruit to each person.

**Consomme.**  
1 lb. beef from round cut into small pieces.

1 small knuckle of veal cut into small pieces.  
2 quarts cold water.  
1 table spoon each carrots, turnips and onions cut into dice.  
1 table spoon salt, 1-2 table spoon marjoram, 1-2 table spoon thyme.

1 tea spoon peppercorns, 1 bay leaf, 1 sprig parsley, 1 lump sugar. Simmer the beef, veal and water for four hours; add the vegetable and seasonings; simmer one hour, strain, cool and clear.

To clear the soup add a slightly beaten white of egg and crushed shell, place on fire and stir until it boils. Boil five minutes, simmer gently fifteen minutes, add a tiny piece of ice. Remove scum. If necessary pour through a wet cloth into a bowl. Heat and serve.

**Roast Turkey.**  
Dress, clean, stuff, and truss a ten-pound turkey. Place on its side on rack in a dripping-pan, rub entire surface with salt, and spread breast, legs, and wings with 1-3 cup butter, rubbed until creamy and mixed with 1-4 cup of flour. Dredge bottom of pan with flour. Place in a hot oven, and when flour on turkey begins to brown, reduce heat, and baste every fifteen minutes until turkey is cooked, which will require about three hours. Pour water in pan as needed to prevent flour from burning. Turn turkey during baking that it may brown evenly. Remove string and skewers before serving. Garnish with parsley.

**Stuffing.**  
2 cups cracker crumbs, 2-3 cup boiling water, 2-3 cup butter, salt and pepper.

**Poultry Seasoning.**  
Melt butter in water, and pour over cracker crumbs, to which seasonings have been added.

**Glazed Sweet Potatoes.**  
Wash and pare 9 medium-sized sweet potatoes. Cook in boiling salted water for 10 minutes. Drain, cut in halves, lengthwise, and put into a buttered baking dish. Make a syrup by boiling 3-4 cup sugar and 1-3 cup water; add 1-2 table spoons butter. Pour syrup over potatoes and bake 10 or 15 minutes, until tender. Baste with syrup.

**Creamed Onions.**  
Put medium sized onions in cold water and remove skins while under water. Drain, put in a saucepan, and cover with boiling salted water. Cook until tender. Drain, and serve with white sauce prepared as follows:

Melt 4 table spoons butter, add 4 table spoons flour, 1-2 teaspoon salt and few grains pepper, stir until blended. Gradually add 1 pint scalded milk and stir until well mixed.

**Cranberry Jelly.**  
Pick over and wash 4 cups cranberries. Put in a stewpan with 1 cup boiling water and boil 20 minutes. Rub through a sieve, add 2 cup sugar, and cook five minutes. Turn into a mould or glass.

**Dinner Rolls.**  
2 table spoons sugar, 1-4 teaspoon salt, 1-2 cup scalded milk, 1-2 yeast cake dissolved in 2 table spoons lukewarm water, 3-4 cups flour.

2 table spoons melted butter, 1 egg, Few gratings from rind of lemon. Flour.

Add the dissolved yeast cake to the sugar, salt and milk and then the 3-4 cup flour; cover, set in a warm place to rise, then add the melted butter and the egg well beaten, grated rind of one lemon and enough flour to knead. Let rise again, roll to 1-2 inch in thickness, shape with a small biscuit cutter, place in a buttered pan close together. Let rise again and bake.

**Macaroon Ice Cream.**  
1 quart cream, 1 cup macaroons, 3-4 cup sugar, 1 table spoon vanilla.

Dry, pound and measure macaroons; add to cream, sugar and vanilla, then freeze.

**Rolls.**  
1-4 cup butter, 1-2 cup powdered sugar, 1-4 cup milk, 7-8 cup bread flour, 1-2 teaspoon vanilla.

Cream the butter, add sugar gradually, and milk drop by drop; then add flour and flavoring. Spread very thinly with a broad, long-bladed knife on a buttered inverted dripping-pan. Crease in three-inch squares and bake in a slow oven until delicately browned. Place pan on back of range, cut squares apart with a sharp knife, and roll while warm in tubular or coriographic shape. If rolled tubular shape, tie in bunches with narrow ribbon.

**MENU.**  
**Cream of Tomato Soup**  
**Beef Loaf**  
**Baked Potatoes**  
**Baked Squash**  
**Apple Sauce or Jelly**  
**Bread and Butter**  
**Mock Mince Pie**  
**Coffee**

In the following recipes all measurements are level unless otherwise specified.

**Cream of Tomato Soup.**  
1-2 can tomatoes, 2 table spoons sugar, 1-4 teaspoon soda, 1 quart milk, 1 slice onion, 4 table spoons flour, 1 teaspoon salt, 1-8 teaspoon pepper, 4 table spoons butter.

Scald the milk with the onion, remove onion and thicken milk with flour diluted with cold water until thin enough to pour, being careful that the mixture has no lumps. Cook in double boiler twenty minutes, stirring constantly at first. Cook tomatoes with sugar fifteen minutes, add soda and run through a sieve; combine the mixtures pouring the tomato into the thickened milk, add the butter cut into small pieces and the salt and pepper.

**Beef Loaf.**  
1 pint cold meat (beef, chicken or veal chopped fine), 1 heaping teaspoon chopped parsley, 1 teaspoon salt, 1-2 teaspoon onion juice, 1 cup milk, 2 eggs, 2 table spoons butter, 1-2 cup bread crumbs, 1 little pepper.

Add the seasonings to the meat, then the bread crumbs, the milk heated and the eggs well beaten. Mix well and pour into a buttered mould with a buttered paper over the top. Place in a pan of hot water and bake one hour. This will serve ten people. An ordinary bread pan makes a suitable mould. The onion juice may be extracted by cutting a slice from the root end of the onion, drawing back the skin, and pressing the onion with a rotary motion on a coarse grater.

**Baked Winter Squash.**  
Cut squash in halves, remove seeds and stringy portions and bake in a covered pan until soft (about two hours). Remove from the shell, mash and season with butter, salt and pepper.

**Mock Mince Pie.**  
4 common crackers rolled, 1-2 cups sugar, 1 cup molasses, 1-3 cup lemon juice or vinegar, 1 cup raisins seeded and chopped, 1-2 cup butter, 2 eggs well beaten, Spices to taste, Mix ingredients in order given and bake between two crusts. This quantity will make two pies.

**MATHIS, KAMM & SHIRE SAY.**  
That customer who went out of our store six months ago to look for a better shoe for the price is still looking.

**FEDERAL RESERVE BANK NOTES.**

Samples of the new federal reserve notes were displayed in the window of the Farmers' State Bank & Trust Co. The new notes look very much like currency previously issued and bear on the face the signatures of John Burke, treasurer of the U. S., and William G. McAdoo, secretary of the treasury. A picture of Lincoln is on the face of each note, and there are two colonial scenes on the reverse side.

So far as all the details of the federal reserve law and the actual effect it will have on the business of the country is concerned, the bankers themselves are still somewhat in doubt. While it is not true of Jacksonville bankers it is said to be the case with some bankers elsewhere that there is a fear that the federal reserve system, while it will be of great benefit to the larger institutions, will not be much help to the banks in the smaller cities and towns. However, the sponsors for, and the advocates of, the new act are confident that this fear is groundless and maintain that all that is necessary is the passage of a few months' time to make clear the advantages of the operation of the law to banks both large and small and to the business of the country generally.

**SPECIAL SALE.**

**TO HOLD ANNUAL MARKET.**  
The ladies of the Congregational church will hold their annual Thanksgiving market at Taylor's store Tuesday, Nov. 24. They will have for sale delicious mince meat, fruit cakes, plum pudding, pies, doughnuts, etc.

## POISONS AND HABIT-FORMING DRUGS.

In the Health Reports issued by the United States Public Health Service this week there appears a discussion and digest of recently enacted State laws regulating the possession, use, sale and manufacture of poisons and habit-forming drugs. With them are presented a compilation of the laws and regulations on the subject recently enacted in thirty-two States.

This compilation of laws emphasizes again the frequently made observation that the average American has an abiding confidence in the possible value of statute law. It also suggests that the laws relating to the manufacture, sale and use of poisons, while numerous, are not effectual, largely because of the inability or unwillingness of the proper authorities to enforce them.

Much of the difficulty encountered in enforcing laws relating to poisons is due to the fact that we have as yet no generally acceptable definition for a poison. Individuals generally feel that they understand what is meant by "a poison", but efforts to satisfactorily limit this meaning have signally failed. This is so largely because of the fact that by far the greater amount of the material that may be classed as poisonous is seldom recognized as being a menace to human life.

Considerable interest is evidenced at the present time in discussions on the need for greater uniformity in laws relating to the manufacture, sale and use of poisons or of articles that may contain poisons, and the desirability of having the various State laws conform in their general requirements at least, to the corresponding requirements of Federal laws.

It has been pointed out that the several State food and drug laws while following the same general pattern usually differ to some extent and these differences particularly the paragraphs relating to the labelling of preparations have come to be a constant annoyance to the manufacturer, the jobber, and the retailer. The jobber and the retailer are more directly interested as the manufacturer having labelled his products in accordance with the Federal law may ship them into State regardless of the special requirements of the State law, thus making the other branches of the trade liable in the event that the goods do not comply to the provision of the local requirements.

Greater uniformity is also desired in connection with the laws and regulations designed to restrict the sale and use of poisons, and manufacturers and dealers doing an interstate business are at the present time agitating for the enactment of a national poison law which would serve to provide regulations for interstate traffic and would also tend to arouse renewed interest in the nature and object of local laws and would possibly lead to their more efficient enforcement.

## "THIS DATE IN HISTORY"

Nov. 22.

1586—Sentence of death announced to Mary Queen of Scots.

1800—Congress first assembled at Washington.

1848—Costa Rica became independent republic.

1852—Napoleon III elected emperor of France.

1867—Jefferson Davis returned to Richmond, Va.

1894—Officers of Standard Oil Co. indicted in Texas for anti-trust violations.

1902—Frederick A. Krupp, great German gunmaker, died.

"THIS IS MY 53RD BIRTHDAY."

Cyrus E. Dallin.

Cyrus Edwin Dallin, America's foremost sculptor, was born at Springville, Utah, Nov. 22, 1861.

He was educated at Springville, then studied art abroad. He received many medals in Paris and in America, and his statues are found in many cities. His "Signal of Peace" at Lincoln Park, Chicago, was one of his earlier works; others are: the Pioneer Monument at Salt Lake City; statue of Sir Isaac Newton at the Congressional Library in Washington, the Medicine Man at Fairmount Park, Philadelphia, the Apollo to the Great Spirit at Boston Museum of Fine Arts, and the Cavalryman at Hanover, Pa.

Congratulations to:

Congressman John N. Garner of Texas, 45 years old today.

Sir Richard Glyn, British explorer, 82 years old today.

Rev. Edmund T. Shanahan, Dean of Catholic University, Washington, 46 years old today.

**THICK, GLOSSY HAIR**

**FREE FROM DANDRUFF**

Girls! Beautifying Your Hair! Make it Soft, Fluffy and Luxuriant.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.—Advertisement.

## HOG CHOLERA WIDESPREAD IN MORGAN COUNTY

Suggestion Made That Hog Growers Write Experiences With Vaccination.

The prevalence of hog cholera in all parts of the country has led Alex Ranson to suggest to the Journal that farm readers be requested to give their experience with reference to vaccination of hogs. It seems that quite a large number of Morgan county farmers this year and others in former years have had hogs vaccinated as both a preventative and a cure of cholera. It seems also that while the majority of farmers who have had serum administered to their hogs believe that the results have more than justified the expense, that there are others who have not been wholly satisfied with the results.

Probably there never was more hog cholera in Morgan county than is true today, and it seems to be scattered into practically every precinct. It is true, too, that this is not a local condition, for cholera is scattered all over central Illinois and somewhat in southern Illinois. Northern counties of the state seem to be free from the disease than any other portion. There is no question but that to accomplish a great deal there must be unity of action and the losses which are being sustained by the farmers will probably do more than anything else to impress upon them the need of the farmers' club or some other organization for the farmers and stock growers. By means of such an organization with the officers and members scattered throughout the county, it would be possible to take preventive measures to stamp out cholera to a large extent at least.

Individually the fight is a serious and a difficult one, and even by united effort it is not absolutely certain that the disease could be stamped out, but certainly something could be done in this matter. Vaccination and application of serum is not prohibitive in the matter of expense, especially if this is done before the hogs are full grown. The trouble seems to be in many cases that the farmer takes the chance of having hogs healthy either because he has never had cholera or because there has been none on his farm for a year or two. He realizes that he is taking a chance, but rather than spend the \$50 or \$75 it would cost to have his hogs immunized he takes this chance. If a farmer stopped to think, not only of the loss he might sustain himself, but of the loss that he may occasion to others, in the great majority of cases vaccination would be the method followed.

The suggestion made by Mr. Ranson is a good one and the present is certainly a time for the exchange of experiences among hog raisers in this county. If any farmer has found some remedy which has helped him in the combat with the disease, or has helped in keeping his hogs free from disease, he should certainly be glad to divide the good news with his neighbors. The Journal will be glad to hear from any resident of the county giving his experience, especially with reference to the vaccination of hogs. A written communication on the subject is preferable, but any reader who has anything of value to offer can call us up by phone and give the facts, which can then be shaped up for publication.

## ILLINOIS BIRTHDAY TO BE OBSERVED DECEMBER 3RD.

Commercial Clubs of State Have United to Secure Emphasis for the Anniversary.

The third day of December, the "birthday" of Illinois, will be celebrated throughout the state as Illinois day.

Governor Edward F. Dunne has officially proclaimed December 3 as Illinois day and has called upon the people of the state to join in its observance—such observance to consist of patriotic meetings by public bodies, civic and commercial organizations, societies and clubs and the public generally to celebrate the achievements of the state and promote its future progress. Commercial organizations of many cities of the state, will observe December 3 by holding big Illinois day meetings. Mayors of cities have been petitioned to issue proclamations calling upon their citizens to join in the Illinois day observance.

City and country schools are expected to co-operate in the celebration by holding appropriate exercises on Illinois day—in many localities this co-operation is already pledged and it is believed this plan will be generally followed throughout the state.

The universities and colleges of the state are also behind the Illinois day movement, and a number of influential institutions have arranged special ceremonies in recognition of this occasion.

The movement to celebrate the anniversary of the admission of Illinois was initiated by the Illinois committee of the Chicago Association of Commerce. Concerted action among the commercial, civic and other bodies of the state to make the observance of this day an impressive occasion will accomplish much, it is believed, in stimulating a patriotic interest in the welfare of the state and in promoting effective co-operation for its future progress.

The following organizations are among those which thus far have enthusiastically endorsed the movement and are making arrangements to hold large Illinois day meetings: Alton Board of Trade, Aurora Commercial Club, Cairo Association of Commerce, Civic Club of Kewanee, DeKalb Commercial Club, East St. Louis Commercial Club, Elgin Commercial Club, Jacksonville Chamber of Commerce, Joliet Association of Commerce, LaSalle Commercial Association, Greater Moline Committee, Moline Commercial Club, Peoria Association of Commerce, Rockford Chamber of Commerce, Rock Island Club, Springfield Commercial Association.

The Chicago Association of Commerce. The observance in the various localities will take the following form: 1. A big meeting by the local commercial organizations with a program appropriate to the Illinois day idea.

2. Co-operation of the press in calling public attention to the achievements of state and present movements looking to its future progress.

3. Act 1 by city administration to encourage local celebrations with an Illinois day proclamation issued by the Mayor.

4. Observance of Illinois day by appropriate exercises in city and country schools and in colleges and universities.

5. Enlisting the co-operation of commercial organizations in neighboring communities to join in a general observance of Illinois day.

## "SEPTEMBER MORN"

One of the newest of musical farcial shows is a brisk, merry affair which the thoughtful author calls "September Morn" and serves delightfully to entertain he or she that may be in search of real, live amusement. The producers, Rowland and Clifford, who have a long string of theatrical successes to their credit, have given their latest funny musical show an extremely elaborate mounting, both in regards to scenic effects and costuming. The series of stage pictures have created favorable comment everywhere the piece has been presented. That jolly comedian, Leo Greenwood always as welcome as the proverbial flowers in spring is the principal of the cast and associated with this brilliant fellow of nimble legs and funny faces are many happy comedy players who keep the fun moving at a rapid fire pace. The company of girls have much to do with "putting over" the tuneful jingles and attractively arranged ensembles. The dances are many and have to do with the famous Tango and graceful Hesitation waltz movements, which are the hits of the leading cabarets and big music halls of New York and London.

"September Morn" is simply delightful from curtain to curtain and Ollie Carew "The American Gaby Deslys" has made an immense hit in this new fun show. The attraction comes from the LaSalle Opera House, Chicago, where "September Morn" had a highly successful run. Grand Opera House, Monday, Nov. 23.

Y. W. C. A. MEETING.

The members of the Y. W. C. A. of Illinois college met at 2:45 Friday afternoon in their room in the college building with a goodly number in attendance. The leader was Miss Maude Hess. The subject for consideration and discussion was "Thanksgiving." Miss Marion Akers in a very pleasing manner rendered the solo, "The Lord's My Shepherd." The social hour was presided over in a very happy manner by Miss Irene Moore as hostess.

Atmosphere is a term used by artistically inclined people to express an indispensable something necessary for the proper development of temperamental studies. Painters, writers, players travel far to get this needed inspiration.

Atmosphere is of equal importance to business and social expansion and it is constantly available over the telephone at your elbow.

If there be an important deal on, a decision to be made or a meeting arranged for, create the atmosphere over the telephone by a serious, thoughtful, enthusiastic conversation. Study your topic; study your man; study your approach, your argument and your climax. Thus fortified, no matter how far away you are, your atmosphere can be transmitted over

## MORTUARY

Neylon.  
A telegram received yesterday by Carl Graubner announced the death of Miss Annie Neylon at her home in Mt. Sterling. Miss Neylon was for many years a resident of this city and was a nurse at the Jacksonville state hospital. More recently she has been a resident of Chicago and was in a hospital there. Her illness was of long duration and it was only recently that she was taken from Chicago to her former home at Mt. Sterling.

The funeral is to be held Monday and a number of Jacksonville people will probably attend.

C. & A. EMPLOYE IS KILLED  
BY TRAIN NEAR ROODHOUSE

George Blackburn Dies of Injuries at Passavant Hospital Saturday Afternoon—Coroner Holds Inquest.

George Blackburn, an employee of the Chicago & Alton railroad company, died at Passavant hospital Saturday afternoon at 12:30 o'clock as the result of injuries sustained when he was struck by a C. & A. freight train Saturday morning. The remains were taken to the Gillman undertaking establishment and Saturday night at 8 o'clock were sent to the home in Manchester.

Coroner George W. Wright held an inquest to inquire into the death of Mr. Blackburn and the jury was composed of George Paul, foreman, R. C. Shafer, J. Harry Woods, L. G. Purvines, James Whalen and Matthew Harmon, clerk. The witnesses examined were R. W. Chapman, a witness to the accident; Dr. Carl E. Black, who attended the man after he was brought to Passavant hospital; J. W. Hitz of Bloomington, conductor on the train which struck the deceased; Benjamin C. Voltmer, engineer and O. C. Mohler, fireman on the engine which struck the man.

## Eye-Witness Testifies.

According to the testimony of Mr. Chapman he was working on a farm near the Chicago & Alton railroad tracks Saturday morning and about 8 or 9 o'clock saw a man coming up the track on a "hurdy-gurdy." The next time he looked he saw a train coming from the south, running in the same direction in which the man was going. He said the man did not seem to know that the train was approaching until it was within twenty feet of him, when he looked around and seemed to make an effort to jump. The engine was running backward and the tender of the locomotive struck the man, knocking him into the ditch at the side of the track. Mr. Chapman went over to the man and called Dr. Hawthorne to meet the train at Roodhouse, as requested by the trainmen. Mr. Chapman also stated that he had known the deceased to be a sober man and had worked for the Chicago & Alton for twenty years. He said that he did not hear the whistle or bell on the engine.

Members of the train crew testified that they were on their way to Roodhouse on the air line to disinfect some stock cars, when the accident happened. The engine was backing and was pulling three cars. Conductor Hitz stated that he was in the caboose next to the engine and when he felt the engineer apply the air, looked out but couldn't see anything wrong. The engineer then ran the train back to where the man was struck, and the injured man was placed in the caboose and taken to Roodhouse where Dr. Hawthorne attended him. Acting on the advice of Dr. Hawthorne the man was immediately brought to this city and the train arrived here at 9:35 o'clock.

## Hat, Coat Collar Over Ears.

Engineer Voltmer testified that the train was running about thirty miles an hour when he first saw the man, and that he immediately sounded the whistle and applied the air, but the distance was too short for him to stop the train. He said the bell on the engine had been ringing from the time they left the Roodhouse yard limits, and that the man on the speeder and his coat collar turned over his ears, which might have prevented him from hearing the approach of the train or the whistle. Dr. Black stated that the injured man was unconscious when brought to the hospital and did not regain consciousness. He said the man had numerous injuries about the head, a fracture of the right arm and a compound fracture of the left ankle joint. The jury returned a verdict that Mr. Blackburn died as the result of injuries received by being struck by a Chicago & Alton freight train while in the discharge of his duties as an employee of the road.

George Blackburn was born in Greene county, December 7, 1856, and spent his entire life in this state. He was married to Miss Nettie Billings at Manchester twenty-seven years ago and is survived by his widow, three children, Earl, Maude and Ruth, all at home; and the following brothers and sisters, Mrs. Mary Eastman of Elgin; Frank of Manchester; Mrs. Lucy Lucas of Brownsville, Texas; Edward and Mrs. Emma Day of Manchester. The deceased was a member of the M. W. A., and had been in the employ of the Chicago & Alton for more than thirty years.

Funeral services will be held at the residence in Manchester probably Monday, in charge of Rev. Frank Crabtree. Interment will be made in the Manchester cemetery.

### CIVIC LEAGUE HOLDS ITS REGULAR MEETING

Annual Election of Officers Takes Place—League in Resolution Asks Supt. Vasconcellos to Appoint Lady Assistant.

The Woman's Civic League held a regular meeting Saturday afternoon at the Public Library. An election of officers was held and a resolution adopted asking County Supt. Vasconcellos to appoint a woman as assistant in his office.

In the business transacted the women discussed the matter of asking for at least one woman judge and one woman clerk at each polling place in the city. It was brought out in the discussion about the Superintendent's assistant that Mrs. W. S. Badger was an applicant for the place and that the league endorsed her.

Miss Annie Jackson introduced the following resolution, which was adopted by a unanimous vote:

"In consideration of the fact that there has been added to the county 6,000 women voters, and in view of the fact that the schools have always been of peculiar interest to women; therefore, be it

"Resolved, that we, the Woman's Civic League of Jacksonville, recommend to the incoming county superintendent, in case an appointment has not already been made, the appointment of a woman assistant in his office.

The following officers were elected:

President—Mrs. J. H. Danskin.

First vice president—Mrs. David Reid.

Second vice president—Dr. Grace Dewey.

Secretary—Mrs. J. R. Watt.

Treasurer—Mrs. George Holling-er.

### G. H. WILMERT SELLS STORE TO A. H. ATHERTON

Business on Square Passes Into Hands of Former Owner.

Through a deal which was consummated Saturday G. H. Wilmert sold his store on the east side of the square to A. H. Atherton, who took possession yesterday noon.

Mr. Wilmert was forced to make the sale on account of his wife's ill health. She is now at her home in Lincoln and her husband will take her to Florida to spend the winter.

Mr. Wilmert has been quite successful since taking the store two years ago, having purchased the stock from Mr. Atherton. Mr. Atherton is well experienced in the business and expects to keep the store up to the minute and his friends will welcome him back once more into the ranks of the business men.

The ever increasing demand for EVER WEAR HOSIERY OF FRANK BYRNS Hat Store proves that merit wins.

### STILL TALKING ABOUT COUNTY APPOINTMENTS

Various Candidates for the Several Positions to be Filled—Early Announcements Expected.

The fact that the Woman's Civic League Saturday adopted a resolution endorsing the candidacy of Mrs. W. S. Badger as assistant county superintendent of schools, has brought to notice the fact that there are a number of applicants for that position, or at least persons who have been talked about in connection therewith. Miss Gussie Duffner, who is now teaching school in the Franklin neighborhood is understood to have applied for the position and others talked about are W. S. Lowrey of Franklin, John H. Brown of Jacksonville and Edgar Cooper of Concord. It is said, too, that E. M. Vasconcellos has been mentioned for the position, although it is hardly considered likely that Supt. Vasconcellos will appoint a Republican to the position.

And, talking about appointments, there is still speculation as to whom William Masters, assessor and treasurer-elect, will name as his office deputy. Among those prominently mentioned for this position are Eugene Kettering, James Ellis, John S. Sheppard, W. C. Howe, and Haller Higgins. Gilbert Masters, who is now deputy in the office of Circuit Clerk Pyatt, has also been spoken of but it is understood that he is not an applicant for the position. Mr. Masters is to enter upon the duties of his office Monday, December 7, so that it will not be long now until announcement is made as to his choice for office deputy.

The retirement of County Commissioner J. T. McFadden and the election of D. T. Wilson, it is said, may bring about changes in the office of county physician and superintendent of the county home. Five physicians have been mentioned, Dr. T. O. Hardesty, who is now serving; Dr. George Stacy, Dr. G. R. Bradley, Dr. J. U. Day and Dr. J. E. Wharton. W. F. Todd, who is serving as superintendent of the county home, would like to be retained in that position and it is understood that W. H. Weatherford, now deputy sheriff, is an applicant and that Oyer Wright of Franklin, is another man who has his eye on the appointment.

The office of county superintendent of highways is also to be filled and thus far L. V. Baldwin, the present incumbent, is the only person who has been talked of for the position. It is understood that the county board will consider the matter of appointments at the regular term session, which will convene the third Monday in December.

## H. M. BULAND TO GIVE UP COACHING

DESIRES TO FURTHER HIS TEACHING CAREER MINUS ATHLETICS.

"Have Gone Along the Road Where Success in Football Coaching Instead of Being a Helper is a Positive Detriment", He Declares.—Has Been Successful as a Coach.

H. M. Buland, coach of the high school football team, is in the peculiar position of wanting to quit a work that has made him rather famous and being unable to quit because of efficiency.

Buland a year ago announced that his days as a football coach would be ended when the 1913 eleven finished its season. This year when the breath of fall came into the air Buland responded to the call and has turned out a team which has an equal chance with West Aurora for the championship of Illinois. And now, Buland wants to retire at the moment of his greatest triumph.

"My future is not, I hope, dependent on football," said Coach Buland in an interview Saturday. "I want to get ahead in my chosen work of teaching. I have gone along the road where success in football coaching instead of being a helper is positively a detriment."

"If it were my intention to remain a coach, I would probably accept a position with a minor college and work up from there. But now, I am convinced that I must drop football and give my time to my studies if I am to accomplish the end I have set for myself."

"I like football and care for it as no other sport and the boys I have worked with have been noble; they have grown into competent men in the work demanded by the world of today. It is my hope that I may have had something to do with shaping their lives."

"High school athletics are for the most part wholesome and composed of an earnest body of young men and the associations of high school have had much to do with the moulding of character. It is the thought that I may be of use to boys on the football field that act as a detriment to the wish of continuing my education."

Coach Buland's reputation as a commercial teacher and physical director has been such that there have been numerous occasions where offers of other positions have been made him. This year he has been successful in building up a team from "our old men" and the record they have made stands for itself.

Christmas handkerchiefs are displayed this week at special prices. F. J. WADDELL & CO.
